CHAPTER V
CONCLUSION AND SUGGESTION

5.1 Conclusion

Based on reading theory, using the Mangaplus Application can help students develop their reading skills and understand the content of a story text. Students may read better and understand the content created by the teacher by utilizing the mangaplus application, and they can access the reading application from anywhere. This can also inspire educators to integrate technology and education into the instructional and learning procedures within schools. Teachers can incorporate supplementary reading applications as tools for students' learning, utilizing available technology that assists both teachers and students in the teaching and learning process.

The findings of this research indicated an improvement in students' reading comprehension through the implementation of the Mangaplus program. Throughout the study, students underwent a pre-test, received treatment, and took a post-test. The conclusion drawn from this study is that the Mangaplus application not only supports teachers in the teaching and learning processes but also influences students' interest in reading

5.2 Suggestion

After finishing this research, here the suggestion can the researcher be given as follow:

1. To English Teacher
    a. Englsih teachers should encourage active learning in the English teachung-learning process so that students find it easy and enjoyable to acquire new things
    b. English teacher recommend using a variety of teaching strategies to help students understand the content better
2. To Students
    a. The researcher hopes that the students are motivated to develop their english skills and have strong self-confidence in their ability to study. especially in reading
    b. The students must read frequently, whether through book or on digital media reading application like mangaplus and other reading platform
3. To Other Researcher
    a. This thesis strives to provide a significant contribution to future researchers exploring similar topics. The author aspires that the Mangaplus Application can serve as an educational tool applicable across various subjects in the school curriculum.
