CHAPTER V

CONCLUSIONS AND SUGGESTIONS

5.1 Conclusions

After conducting and analyzing research related students' perception on the use of YouTube for students' speaking skill at SMA N 8 Kota Jambi. It has resulted that :

Based on the research findings and discussion, the researcher concluded that: Students' perceptions of using YouTube as an additional media for English speaking skills are positive, YouTube is helping them to learn English more deeply, especially speaking skills. On YouTube students can pronounce English sentences well by often imitating what is said in the videos they watch, and can add new vocabulary with every video they watch. Besides that, YouTube is less helpful for learn grammar, and also YouTube is less helpful make it students fluent speak English.

5.2 Suggestion

Based on the conclusion of the research, the researcher would like to give the suggestions as follow:

1. For the teachers

The results of this research are expected for English teachers to find and choose best methods and media in teaching English for their students. Teachers can get idea, knowledge, concept, to improve students' speaking skill through YouTube media.

2. For students

The results of this research are expected to be useful for students to improving their speaking skill. And YouTube as an additional English learning media is effective to help them to improve their students speaking skill.
