ABSTRACT

RESMA DYAH KOMALA / 2000861201029 / 2024 / THE INFLUENCE OFEARNING PER SHARE, PRICE EARNING RATIO AND DIVIDEND PER SHARE ON STOCK PRICE IN THE MINING SECTOR LISTED IN THE INDONESIA STOCK EXCHANGE FOR THE 2018-2022 PERIOD/ AS 1ST ADV Dr. Mufidah, S.E, M.Si. / AND AS 2ND ADV SUSI ARTATI, M.S.AK.

The objectives of this research are as follows:1). To find out and analyze the simultaneous influence of Earning per Share, Price Earning Ratio and Dividend per Share on share prices in the mining sector on the Indonesian Stock Exchange in 2018-2022. 2). To find out and analyze the partial influence of Earning per Share, Price Earning Ratio and Dividend Per Share on share prices in the mining sector on the Indonesian Stock Exchange in 2018-2022.

The research method used in this research is a quantitative method. The type of data used in this research is secondary data. The research sampling process used purposive sampling and a sample size of 15 companies was obtained. The statistical analysis used was Multiple Linear Regression Analysis and the researcher used SPSS 25 software.

Based on the F-Test results, it shows that Earning per Share, Price Earning Ratio and Dividend per Share simultaneously influence share prices in the mining sector on the Indonesia Stock Exchange in 2018-2022. The coefficient of determination shows that Earning per Share, Price to Earning Ratio and Dividend per Share influence the share price by 77.9% and the rest is influenced by other variables. Based on the t-test results, it shows that Earning per Share, Price Earning Ratio and Dividend per Share have a partial effect on share prices in the mining sector on the Indonesia Stock Exchange in 2018-2022. This can be seen from the t-calculated value of each variable Earning per Share (11.407), Price Earning Ratio (10.959) and Dividend per Share (3.692) which is greater than the t-table (1.68385).
